

Gluten Analysis

BIA #: #Dal Makhani - Aromatic
091023C Lentils and Beans

ALLERGEN	METHOD	LOQ (Limit of Qualification)	RESULTS	DATE COMPLETED
Gluten	CODEX	5ppm	< 5ppm	10/23/2009

*As one of the criteria for using the claim "gluten-free," FDA sets a gluten limit of **less than 20 ppm** (parts per million) in foods that carry this label. This is the lowest level that can be consistently detected in foods using valid scientific analytical tools. Also, most people with celiac disease can tolerate foods with very small amounts of gluten. This level is consistent with those set by other countries and international bodies that set food safety standards.
